# Website Image Guidelines

Check the file size of uploaded files.

Images should not exceed 500kb  
(up to 1mb on Course Page Headers).

Image compression may be required in some cases.  
<https://imagecompressor.com> is a free online image compressor.

Images should be in **JPG** format and **not PNG** format as this saves  
on loading time for pages.

Check that the quality of the picture is not pixelated, and make sure  
that you are not uploading large file sizes.
