Jack Carroll CPA, PGDE

Through a career in accountancy and business working in both industry and education for the last 25 years he has built a strong practical knowledge and understanding to deliver this subject. He always aims to engage students by getting their involvement, as the "more engaged the greater the understanding". The key to passing the IAS examination is all about continued hard work and commitment, which will be supported and encouraged by Jack over the entire semester. Over the years, Jack has had very strong results & pass rates in the courses delivered in Griffith College as he has always aimed to have students' exam ready and focused from the start of the course.
