# Theory In Practice

Maeve O'Donoghue LLSM LGSM

Speech & Drama Grades 6 to 10  
Leinster School of Music & Drama Syllabus 2012

'Preparing for your Exam' section, provides all the necessary advice to ensure that students gain the maximum benefit from taking part in these grade examinations.

While comprehensive background information on each aspect of theory is included in the book - some grades have 7 pages - the sections to be known for the exam have been kept to a minimum and are clearly indicated.

The Worksheet Approach gives students the opportunity to apply their Grade Theory to their chosen selections thus making memorisation easier.

The Poetry and Drama Worksheets to be completed for each grade will prepare students very well for questions on characterisation, selections and authors.

Forget about photocopying sheets of theory each year!

When students have completed all the Worksheet Sections in **Theory Made Easy** and **Theory in Practice**, they will have their own 'personalised' theory books for future reference.

Much of the Grade Work can be applied to, and is very beneficial for **Junior and Leaving Certificate English**.
