Foreword

The Leinster School of Music & Drama was established in 1904 to provide inclusive and accessible tuition. For over 113 years of experience as a national examining body in Ireland, the LSMD syllabi continue to uphold high standards of music and drama education. Our syllabi are designed to bring out the abilities of each candidate not merely in technique but in musical culture, temperament and understanding.

The LSMD system of examining is thorough and encouraging for each candidate. Through our graded examinations a student's technical and artistic development can be aptly measured through confidence in their abilities and performance. Examinations are a useful resource for students and teachers to measure their advancement in their studies. For those who do not wish to sit examinations, our syllabi offer a rewarding guide for students and teachers who wish to improve their musical and drama skills.

As Ireland's first music institution to have our music examinations recognised by Quality and Qualifications Ireland (QQI) and the National Framework of Qualifications (NFQ); our mission is to cultivate a student's love and understanding of the arts.

The Teacher Information Pack 2017 – 2018 offers advice and information to teachers and candidates about our syllabi. For those who are thinking of pursuing music and drama studies our syllabi provide the foundations for excellence whether it's on the exam floor or concert stages around the world.

To encourage continued professional development for teachers, the LSMD holds workshops throughout the year, should you have any special recommendations please do not hesitate to contact us. We wish you every success in the academic year 2017 – 2018 and would like to thank you for your continued support.

Recognition of the LSMD's Music Grade Examinations

In 1904 Samuel Myerscough (1854 - 1932) founded the Leinster School of Music. At this time no Irish based music institution offered training for musicians who wished to become music teachers. The school aimed to promote music education and give the nation of Ireland accessible music tuition by introducing music teacher training examinations which continues to date.

In 1998 the Leinster School of Music and Drama partnered with Griffith College Dublin. Through this partnership the LSMD has developed a structured system of examinations that were highly regarded by Quality and Qualifications Ireland (QQI) and the National Framework of Qualifications (NFQ). The music and drama examination syllabus has been framed on modern and educational principles. From Primary to Diploma graded examinations are based on systematic progression of the candidate.

In keeping with the original aims of the LSMD, further teacher training and education continues to develop with the recognition of the LSMD Associate and Licentiate Diplomas for both music and drama as Level 6 courses on the National Framework of Qualifications of Ireland. These courses provide a natural progression for many students who wish to pursue a career in music and drama pedagogy and performance.

Further developments to our teacher education programmes come with the development of the Higher Diploma in Arts in Music Education and Higher Diploma in Drama Education, all being validated by QQI at a Level 8 on the National Framework of Qualifications of Ireland.

Music Syllabus Overview

In 2004 the LSMD celebrated its centenary with an update of its syllabus. It was felt at the time had come for a further review of content and the introduction of some new ideas to meet the needs of our candidates. Our music syllabi recognises that not all learners are the same and the syllabi takes into account the capacity of teachers at local level to assess and cater for individual learner needs.

The LSMD music syllabi has a number of innovative concepts:-

- a) The repertoire has been broadened to include a wide range of contemporary genres.
- b) A choice option in performance gives students and teachers further choice in higher grades relating to the development their technical and musicianship skills.
- c) Aural awareness is imperative to the development of a student's critical ear which can discern different aspects of performance. With this in mind the objective is to enhance a student's aural skills.
- d) Improvisation and Keyboard Harmony is introduced at the higher grades. This will support student participation in musical environments outside of the classroom.
- e) Students at the higher grades are expected to have knowledge of composers and their works and musical styles.

A broad range of repertoire has been included in our syllabi to suit all levels and tastes of each candidate. Through a structured and systematic learning the LSMD aims to provide a supportive environment to enhance the interest in, and development of music education for both teachers and students. The LSMD graded examination syllabi focus on the all-round development of musicianship and is available for the following instruments:-

- Pianoforte
- Bowed Instruments: Violin, Viola, Cello, Double Bass

Information for Teachers

For all new teachers: The LSMD offers a Mentor Programme that links new teachers up with experienced and dedicated pedagogues throughout the country.

The exam serves as motivation and inspiration for the student. They work from a carefully structured syllabus towards a definite goal. It is an assessment by an independent examiner who has an objective viewpoint of the work. All aspects of the exam should be covered well in advance of the exam date.

- It is important that teachers check all the requirements in the current syllabus and consult the errata booklets as details can change from time to time.
- Choosing suitable pieces for the candidate is very important, as each teacher is aware of the capabilities and individual needs and strengths of their pupils.
- It is recommended to encourage pupils to perform their pieces to a friendly audience (family, friends and other students) before the exam. Having small concerts a few weeks before the exam helps to dispel exam nerves on the day.
- Careful planning of work throughout the year helps to have a young student more prepared in the run up to the exam.
- Teachers and examiners should be in contact at least 3 weeks prior to the exam date to discuss timetabling. This is to ensure of smooth running of exams on the day.
- Candidates presenting for exam at a Host Centre are advised to liaise with the Host Centre 3 weeks prior to exams. Teachers are encouraged to accompany students to their exams.

Overall, the examination process should be an enjoyable experience and the result:-

A just reward for all the hard work done.
