

<b>Module 4</b>	<b>Technology Enabled Learning</b>
Credits	5 ECTS
Tutor(s)	Alice Childs

### **Intended Module Learning Outcomes**

On successful completion of this module, the learner will be able to:

1. Competently select from current best practice appropriate technological tools and apply them in a learning environment including online, blended, and face to face learning
2. Use appropriate learning theories to underpin the technology used
3. Select online materials for use with learners which are legal and ethical for use and academically appropriate
4. Critically reflect on the use of technology in education
5. Critically evaluate technology's use in education and justify its use in practice

### **Module Objectives**

This module aims to introduce learners to the use of innovative technology in education to enhance the learning experience. Learners critically evaluate these technologies and assess their appropriateness for different users and groups of users. The module enables learners to assess technologies through their social and personal use and through the lens of pedagogy and learning theories allowing them to blend technology to enhance pedagogical practice.
