

CAD Technician

We are a Fire protection company based in Dun Laoghaire and we are looking for a CAD technician to join us.

- The duties will be to design and layout sprinkler systems using Autodesk CAD software.
- We will provide all training which will entail attending courses in the UK with BAFSA and the BRE.
- A good working knowledge of AutoCAD is required.
- Responsibilities include laying out sprinkler heads, assisting with site surveys, compiling submittals and other necessary paperwork under close supervision and assistance.
- The ideal applicant should have 1-2 years' experience using AutoCAD. Must work well with others and have a desire to learn the trade.

Please send your CV to Tony Woods at twoods@firesprinklers.ie
