

Salesforce Sales Cloud Developer – Cross-Skill and Migrate Your Career to the Cloud

Location: Dublin

Duration: Permanent

Fidelity Investments has been building cloud-based solutions using Salesforce for over a decade. If you're seeking a career change and have a background in engineering, especially in Java/J2EE or .Net/C#, then why not consider cross-skilling in Salesforce development and join our Salesforce Centre of Excellence (CoE) in Dublin?

The Skills You Bring

- You're a good communicator and have a real customer-centric mind-set.
- Strong analytical, engineering, problem solving and organizational skills.
- A solid understanding of Object-Oriented design and concepts.
- Programming skills in HTML5, DHTML, CSS, JavaScript are beneficial.

The Purpose of Your Role

You will be part of a global product team across Ireland, India and the US. This team is focussed on delivering a superior end-user experience for thousands of Sales and Relationship Management associates in the US.

The Expertise We're Looking for

- Bachelor's or post-primary qualification in a Technology-related discipline.
- 2 or more years of software development experience.

The Value You Deliver

- Creating engaging Salesforce solutions using standard configuration capabilities as well as custom solutions using Lightning components and Apex for desktop and mobile.
- Collaborative working relationships with the Business as part of a global Agile team of architects, analysts and developers using Scrum.

How Your Work Impacts the Organization

Our web solutions enable thousands of Fidelity associates in the daily support of our valued clients. Your contribution will play an integral part in our drive to continuously improve our associate experience.
