

Full time 2D & 3D design position

The job would include measuring venues, drawing up floor plans, creation of 3D renders, creation of artwork and preparing it for print, preparing drawings for CNC machining, liaising with clients & suppliers, brainstorming event design ideas.

The packages we use are:

- Rhinoceros
- SolidWorks
- Sketchup
- Adobe Photoshop
- Illustrator

Knowledge of Rhino or SolidWorks isn't critical - as long as the candidate is adept at a 3D package.

A bonus would be knowledge of Premier Pro & After Effects for editing videos.
